We are trying to learn how Sexual Assault Response Teams (SARTs) can better serve and protect women who are survivors of sexual assault.  
We would like to hear from you!

**Are you a survivor?  
We would like your input!**

We invite you to complete an **anonymous** survey, the Sexual Assault Services Evaluation Survey-Survivor (SASES-S), aimed to help us understand the experiences you've had with the criminal justice system as a result of a sexual assault.

Please visit:

to review further information and to complete the survey.
